Cancer treatments pose a significant financial challenge to most patients and their loved ones. **Your continued support will assure others that they are not alone in their fight against cancer.**

Mdm Yan Siew Ghiang,  
SCS Beneficiary,  
Breast Cancer Survivor  
Ringing the bell to mark  
the end of her chemotherapy

Mdm Yan Siew Ghiang was shocked when she was diagnosed with Stage 2 invasive breast cancer in April 2020. Even with subsidies received for her treatment, Mdm Yan's financial burdens were not fully alleviated.

Fortunately, she was recommended by her Oncologist to Singapore Cancer Society (SCS), where she received further subsidies for her treatment, under the SCS Cancer Treatment Fund.

Battling cancer was a tough journey. But thanks to care from her family, friends, healthcare workers, and support from SCS, the 63-year-old survivor can look back at her cancer journey with pride. Mdm Yan believes that the support she had helped in her fight against cancer and hangs on to the belief that there will always be light at the end of the tunnel.

## THE POWER OF GIVING: A CATALYST TO IMPROVE LIVES

Every action counts, be it spreading the message for healthier lifestyle, advocating for regular health screening, volunteering, or rallying your community to raise funds.

You can be an SCS catalyst to inspire your community to fight cancer, and give hope to those impacted by this disease, like our #SCSCatalyst Kristel Wang!

25 September is a special date for Kristel. On this date ten years ago, Kristel's father passed away due to rare cancer, Malignant Peritoneal Mesothelioma. Having lost her father, grandfather, and extended family members to cancer, it is a cause close to her heart.

To commemorate her late father's 10th death anniversary, Kristel signed up for Singtel-Singapore Cancer Society Race Against Cancer 2021 to raise funds for the cancer community. The annual flagship event from 18-26 September 2021, coincided with her father's death anniversary date.

She ran over 46km and raised a total of \$14,595.

**“I wanted to commemorate my father, John Wang, on his 10th death anniversary, who fought the good fight against malignant peritoneal mesothelioma, a rare cancer.”**
